## **(C)** HOW TO EMBED A YOUTUBE VIDEO

Embedding Youtube videos on your site is a great way to boost SEO for your website.

Any Youtube, Vimeo or other professionally hosted video can be embedded on your Nimble website. We recommend using Youtube as that is the platform which is supported within Nimble 2.0. It allows you to paste in either the embed code or simply the video URL.

## **K**HOW TO EMBED A YOUTUBE VIDEO

Share	Embed	Email ×

Once you have un-checked the "Show suggested videos" option, you can click to select the embed code in the text box above the video preview and right-click and select "Copy", or Ctrl+C (Windows) Command+C (MAC) to copy the code.

Content			
INSERT	FORMAT	REVIEW	OTHER
X 🖻 💼 🕻	🛍 🐍 %	🕨 🛋 🗖	I 💷 🟯 🚍 🛱 🏧 🎬 OK 🛄 -

Next, go to the content where you want to embed the Youtube video. In the text editor options on the "Insert" tab you'll see a red button with a play icon in the center. This is the "Embed Youtube Video" button, click on it.

Embed Youtube Video	×
Paste Embed Code Here <pre></pre> <pre></pre> <pre></pre> <pre>// Paste Embed Code Here </pre> <pre></pre> <pre>// Paste Embed Code Here </pre> <pre>/ Paste Embed Code Here </pre>	ww.youtube.com/embed/gwaAPVSxP4c?rel=
or Paste Youtube Video URL	Width Height 640 360
Show suggested videos at the video's end	Use old embed code
Start at (ss or mm:ss or hh:mm:ss)	
	Cancel OK

A popup box will appear. You wil see that you can paste the embed code in the first text box, OR you can paste the Youtube Video URL if you do not have the Embed code.

If "Show suggested videos at the video's end" is selected, de-select it here. You can also set the video to begin at a certain point if you want to begin at a specific time in the video. After you have updated these settings, click "OK."

## **K**HOW TO EMBED A YOUTUBE VIDEO

Once you click "OK" your video is now embedded and will show a preview within the content item. By default, videos are set to responsive sizing (100% width) to adapt to mobile devices.

To delete/remove a Youtube video from a content item, simply click to place your cursor before the video and hit "Delete" on your keyboard until the video disappears.
